25X1A

Gentlemen:

We enclose a proposed subcontract to provide the remote controls asked for by [] as indicated on the attached drawing.

25X1A

The work would provide the [] equipment operator with the ability to start remote systems from his control panel. Normally these systems run 100% of the time.

25X1A

This proposal was requested [] because they were working in the building at the time on another small contract (Plotter power supply).

25X1A

Please let us know if the subcontract is approved.

Very truly yours,

25X1A
